

Inland Empire WATERKEEPER.  
Advocacy • Education • Research • Restoration • Enforcement

## SmartScape Specialist

Part-Time (\$15.00 - \$20.00/hr)

Inland Empire Waterkeeper is partnering with local water suppliers to teach and assist residents and businesses in establishing and maintaining sustainable water-wise landscapes. The goal of the SmartScape program is to promote water saving and environmentally friendly practices to homeowners and businesses.

We are seeking qualified individuals to make site visits to assist and promote water-wise landscaping. The SmartScape Specialist will:

- Analyze project locations and collect landscaping and client data.
- Advise on issues such as plant selection, irrigation, planting, and soil conditions.
- Use industry standard software to provide clients with a basic landscape plan and planting guide.
- Report to the SmartScape Manager and work closely with the Inland Empire Waterkeeper team to provide excellent customer service.

### QUALIFICATIONS

- Knowledge of Inland Empire landscape plants with an emphasis on water-wise and native
- Basic knowledge of irrigation systems and troubleshooting
- Able to work independently with minimal supervision
- Computer skills including MS Office and ability to use/learn landscaping software
- Bilingual skills in English and Spanish are preferred, but not required
- Ability to complete 2-3 site visits per day

### REQUIREMENTS

- Computer/laptop, smart phone, Internet access
- Reliable transportation, California driver license and insurance
- Reside in the Inland Empire area - Riverside/San Bernardino County
- Flexible schedule including evenings and weekends.
- Ability to work outdoors including walking, standing, kneeling, and bending

Preference will be given to candidates who have landscaping/irrigation/Master Gardener certification

This part-time position averages 15-18 hours a week, with no minimum number of hours guaranteed
